ReCAAP ISC Welcomes the Launch of BMP 5 by the Shipping Industry as an Effective Region-Specific Approach to Counter Piracy

ReCAAP Information Sharing Centre (ISC) congratulates the shipping industry on the launch of BMP 5 (“Best Management Practices to Deter Piracy and Enhance Maritime Security in the Red Sea, Gulf of Aden, Indian Ocean and Arabian Sea”) and welcomes the region-specific approach taken in the development of BMP 5 to counter the evolving maritime threats.

The 5th edition, as with its previous editions, draws on the many lessons learned over the years, including the fundamental reality that seafarers have encountered different threats to safety and security when operating in the regions concerned.

ReCAAP ISC will continue to work with the shipping industry for the welfare of seafarers and the safety of sea lanes.
