Piracy and Armed Robbery Against Ships in Asia

Overview

During 18-24 July 17, two incidents of armed robbery against ships in Asia were reported to the ReCAAP ISC by the ReCAAP Focal Point (Philippines). The locations of the incidents are shown in map below; and detailed descriptions tabulated in attachment.

Update on Giang Hai

The Focal Point (Philippines) reported to the ReCAAP ISC that on 7 July 2017, while the government troops were conducting military operations in Patikul Sulu, they recovered a cadaver. The forensic examination resulted in the identification of the body as one of the abducted crew of a Vietnamese flag bulk carrier, Giang Hai. The said bulk carrier was boarded on 19 Feb 17 at about 35 nm west of Doc Can Island in Sulu, Philippines by unknown number of armed men who abducted its six crew and killed one while underway. To date, the remaining four crew of Giang Hai are still being held in captivity. The incident was reported in previous ReCAAP ISC Weekly Reports covering the period 14-20 Feb 17.
RECOMMENDATIONS

The ReCAAP ISC urges ship master and crew to report all incidents of piracy and armed robbery against ships to the nearest coastal State and flag State, exercise vigilance and adopt relevant preventive measures taking reference from the *Regional Guide to Counter Piracy and Armed Robbery Against Ships in Asia*. Furthermore, while in port and in anchorage, ship master and crew are advised to exercise vigilance especially during hours of darkness, increase number of crew on night watch and secure ship’s stores.

The ReCAAP ISC reiterates its advisory issued via the *ReCAAP ISC Incident Alert* dated 21 November 2016 to all ships to re-route from the area, where possible. Otherwise, ship masters and crew are strongly urged to exercise extra vigilance while transiting the Sulu-Celebes Sea and eastern Sabah region, and report immediately to the following Centres:
