Piracy and Armed Robbery Against Ships in Asia

OVERVIEW

During 28 May-3 Jun 19, two Category 4\(^1\) incidents of armed robbery against ship in Asia and one attempted\(^2\) piracy incident were reported to ReCAAP ISC.

The first Category 4 incident occurred on 29 May 19 in Cigading port in Indonesia involving a bulk carrier *CSK Enterprise*. The duty oiler discovered two unauthorised persons in the steering room during his safety patrol. The alarm was raised and the persons fled with some spare engine parts.

The second Category 4 incident occurred on 30 May 19 in the Singapore Strait involving tug boat, *Asia Jaya 28* towing barge, *Sinar Jaya 2912*. The ships were underway at approximately 3.4 nm southeast off Tanjung Piai, Malaysia in the westbound lane of the Traffic Separation Scheme (TSS) of the Singapore Strait when an unknown number of perpetrators boarded the barge. The perpetrators stole some tools from the barge and escaped in a small craft. This is the 6\(^{th}\) incident that occurred in close proximity to each other in the western sector of the Singapore Strait during the period of February to May 2019. All six incidents occurred to tug boats towing barges while underway in the westbound lane of the Traffic Separation Scheme (TSS).

The attempted incident occurred on 10 May 19 at approximately 120 nm east of Banganga, Philippines. This is the first time an incident in that area was reported to ReCAAP ISC. The incident involved 10 perpetrators who attempted to board a bulk carrier but failed due to the piracy countermeasures adopted by the crew.

The location of the three incidents is shown in map below; and detailed description tabulated in attachment.

---

\(^1\) ReCAAP ISC classifies Category 4 as the least significant incident. Under this category, the perpetrators are not armed, and the crew not harmed.

\(^2\) Attempted incidents are incidents where pirates/robbers tried but failed to board the ship.
SITUATION OF ABDUCTION OF CREW IN THE SULU-CELEBES SEAS

As the threat of abduction of crew in the Sulu-Celebes Seas and waters off eastern Sabah remains, ReCAAP ISC maintains its advisory issued via the ReCAAP ISC Incident Alert dated 21 Nov 16 to all ships to reroute from the area, where possible. Otherwise, ship masters and crew are strongly urged to exercise extra vigilance while transiting the area, and report immediately to the Operation Centres of Philippines and Eastern Sabah Security Command (ESSCOM) of Malaysia. The contact details of the Operation Centres of Philippines and ESSCOM of Malaysia (updated by ReCAAP ISC on 3 Jan 19) are as follows:
RECOMMENDATION

The ReCAAP ISC urges ship master and crew to report all incidents of piracy and armed robbery against ships to the nearest coastal State and flag State, exercise vigilance and adopt relevant preventive measures taking reference from the *Regional Guide to Counter Piracy and Armed Robbery Against Ships in Asia*.

The ship adopted emergency response by mustering the crew and using fire hoses on the perpetrators to force them to retreat. After an hour, the perpetrators aborted the attempt to board the ship.
