The location of the incident is shown in the map below, and detailed description of the incident is tabulated in the attachment.

## SITUATION OF ABDUCTION OF CREW IN THE SULU-CELEBES SEAS AND WATERS OFF EASTERN SABAH

There is no incident of abduction of crew reported since the last incident in January 2020 up to today, and no crew is currently being held in captivity by the Abu Sayyaf Group (ASG).

However, on 3 Nov 20, the Philippines authorities had prevented a kidnap-for-ransom plan by the ASG. On 23 Apr 21, the Philippine Armed Forces had conducted the military operation against members of the ASG during which one of the ASG leaders responsible for the abduction of crew in the area of Sulu and Tawi-Tawi had managed to escape. Therefore, the threat of the abduction of crew in the Sulu-Celebes Seas and waters off Eastern Sabah remains high.

The ReCAAP ISC reiterates its advisory issued via ReCAAP ISC Incident Alert dated 21 Nov 16 to all ships to reroute from the area, where possible. Otherwise, ship masters and crew are strongly urged to exercise extra vigilance while transiting the area, and report all incidents immediately to the Operation Centres of the Philippines and Eastern Sabah Security Command (ESSCOM) of Malaysia. The contact details of the Operation Centres of the Philippines and ESSCOM of Malaysia are as shown next page:

The map shows the Sulu Sea to the north and the Celebes Sea to the south. Key locations marked include Lahad Datu, Zamboanga, and Bongao. Contact points are indicated by numbered circles: 1 near Zamboanga, 2a and 2b near Bongao, and 3 near Lahad Datu.
